

545 - Non-Detectable Tote Bin Cover

Document Number: 7102

Date Of Issue: 26/7/2019

Revision Number: 2

Date of Revision: 26/7/2023

Product Code	Product Description	Product Colour
545-A66-PO*-X34	Tote Bin Covers Extra Large Detectable	Multiple colours available

Dimensions:

- Width 620 mm x Length 830 mm x Height 75 mm 38 µm
- Wound on 3" cardboard core
- Nominal reel weight 6.5 kg

Details:

- Virgin LDPE Belly slit gusseted Cover.
- Perforated on the reel.
- Reels of 250 .
- Suitable for Direct and In direct food contact.
- LLDPE/LDPE
- No recycled polythene is used in the manufacture of the goods
- Intended end use of product(s):
- Chilled, deep chilled and frozen foods
- Normal of foodstuffs up to 90 °C
- The melting point of polythene is between 170 and 220 °C

Compliance Statements

Detectamet Ltd confirms that the product(s) named on this declaration comply with the applicable requirements of EU "Framework" Regulation (EC) No. 1935/2004 on materials and articles intended to come into contact with food and with Regulation (EC) No. 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food.

The film complies with EU Regulation No. 10/2011.

Commission regulation 2020/1245

The film is in compliance with the requirements of Articles 2, 3 and 4 of Regulation (EC) No. 1895/2005 on the restriction of use of certain epoxy derivatives in materials and articles intended to come into contact with food.

This film complies with the EU "Packaging and Packaging Waste Directive" 94/62/EC (regulated metals <100 ppm). & EU Directive 2018/852.

Our products comply with the requirements of EN 13431:2004; they are by their nature recoverable in the form of energy recovery. They are not classified as dangerous.

Our products do not contain allergens as stated in EU directive 2003/89 (list in Annex III a), or materials containing genetically modified organisms.

The film does not contain any post-consumer recycled materials

Limitations to use: - The material has been reviewed against the customer's requirements and there have been no identified limitations on the use.

We confirm that the products meet and fully comply with the legal requirements in the country of manufacture and use.

Certificate of food contact compliance

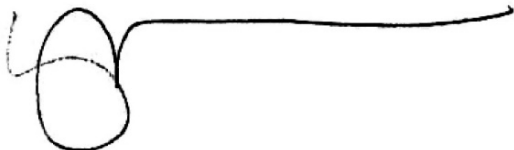

We declare that in the production of the above product all raw materials and additives are certified by their supplier for food contact applications under EC directive 10/2011/EC.

The following monomers and/or starting substances used in the manufacture of the raw materials or additives used to produce this film have a specific limit or compositional restriction:

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of October 2004 on materials and articles intended to come into contact with food and COMMISSION REGULATION (EU) No 10/2011 of 14 January 2011 on plastic materials and articles intended to come into contact with Food According to the provisions of Regulation 1935/2004 and 10/2011/EC , the overall migration limit for which the value 10 mg/dm² is fixed, has to be controlled on the finished articles intended to come into contact with foodstuffs.

This manufacturing process does not modify the organoleptic properties of the food.

No warranty is given or implied with respect to this information or patent infringement. Detectamet Ltd do not accept liability for loss or damage arising from the use of this information. Results are based on a test sample, our general experience and information from our suppliers. Data and results must be confirmed by the buyer by testing for its intended conditions of use.
